Flinders Leadership Mastery Experience

Bronze Program

2024

Contents

F L M E

Introduction

Welcome to FLAME, Flinders Leadership Mastery Experience!

FLAME is a "training by experience" leadership program, designed by the College of Nursing and Health Sciences (CNHS) to match the needs and preferences of professional and academic staff.

We are passionate about investing in our people and providing opportunities to foster and nurture leadership excellence across the College, as well as extending these opportunities to staff across the University.

The FLAME Program includes

- Participation in a range of training sessions
- Reflections and sharing of learning through Collegial Conversations (Learning Action Sets) and peer-to-peer feedback
- Opportunity to apply leadership skills in practice by being involved in driving a project of strategic importance and value
- Completion of a portfolio, reflecting on your experience and learning journey

This information booklet contains more information about each component of the Program.

We hope you find the program engaging and gain valuable skills and experience to support your leadership development.

The FLAME Team

CNHS Dean People & Resources, CNHS Director of College Services, CNHS People & Culture Team, CNHS Operations Team

Leadership Development Outcomes

The FLAME Leadership Program is designed to enhance the leadership capabilities we want to foster.

Great leaders:

- Embrace diversity and demonstrate inclusive, culturally sensitive and openminded leadership
- Are supportive and encouraging, while also able to make timely decisions and have difficult conversations
- Have high levels of self-awareness and understand their impact on those around them
- Strive for excellence by identifying areas for change and supporting their team to achieve great outcomes
- Proactively collaborate across the College/University, encouraging information sharing and open discussions
- Are generous with their time to help nurture others to reach their potential

The FLAME Program aims to equip participants with a "leadership toolkit" and build staff capacity to effectively lead themselves and others. This includes the following key areas of skills, knowledge and experience:

Understanding Self | Understanding Leadership | Understanding Context | Understanding Others

At the conclusion of the Program, Bronze FLAME award holders should be able to:

- Understand the business and social context of higher education
- Connect with their purpose, values and core strengths to lead authentically
- Develop awareness of their personal levels of resilience and identify strategies to manage stress and prepare for future challenges
- Seek out and leverage feedback to enhance their self-awareness, leadership and impact
- Develop a broad understanding of effective leadership roles and strategies to apply in a variety of settings
- Understand how to demonstrate inclusive leadership and embrace the value of diverse perspectives
- Develop effective strategies to constructively navigate conflict
- Embed the desired leadership qualities above into their everyday work

Training Sessions

Wednesday 20 March **10.00 am – 11.30 am**	**The higher education sector & Flinders University organisational structure**	**Facilitated by Mark Gregory, Vice-President (Corporate Services)**
Thursday 11 April **9.30 am – 12.30 pm**	**Leading authentically: understanding your values alignment**	**Facilitated by Jacqui Rosa, CNHS People & Culture**
Thursday 30 May **9.30 am – 1.00 pm**	**Investing in your own resilience**	**Facilitated by Kathryn McEwen, Working with Resilience**
Thursday 8 August **9.30 am – 1.00 pm**	**Fundamentals of leadership and engaging others: Part 1 - How a better understanding of self can positively influence the culture around us**	**Facilitated by Rebecca Christianson, Thriving People Consulting**
Thursday 19 September **9.30 am – 1.00 pm**	**Unconscious bias & embracing diversity: being an inclusive leader**	**Facilitated by Rob Davey, Diversity Australia**
Thursday 31 October **9.30 am – 1.00 pm**	**Fundamentals of leadership and engaging others: Part 2 - developing strategies to constructively respond to conflict**	**Facilitated by Rebecca Christianson, Thriving People Consulting**

FLME

Session 1:

The higher education sector & Flinders University organisational structure

ABOUT THE FACILITATOR

Mark Gregory serves as the Vice President, Corporate Service and Chief Operating Officer of Flinders University.   The portfolio he leads is comprised of great people working on Sustainability, Buildings & Property, Financial Services, Information Technology, Planning Services, People & Culture, Student Accommodation, the University Library, and the New Venture Institute as well as other services across the University.

Mark has enjoyed over twenty years in the higher education sector with prior COO and CIO roles in the United States and Australia. Before working with universities, Mark worked in educational research and innovative technology start-up environments. Mark has also done aid work in several countries, focused on bringing access to essential communication technologies to remote parts of the world.   Mark holds an MBA and undergraduate degrees in Computer Science & Mathematics and Psychology.

SESSION OVERVIEW

Working in the Australian higher education sector is both uniquely challenging and uniquely rewarding, each individual university has its own character and culture

This session will cover what it's like to work in a university, including:

- Where the funding comes from
- What makes a successful university
- The state of play in Australia and other overarching concepts, and where Flinders sits in this mix

Mark will also talk specifically about Flinders University, including:

- The organisational structure of Flinders University, including the Matrix model and College structures
- Governance of the University including key committees, objectives and terms of reference
- The University Strategic Plan, including rationale, planning and outcomes will be presented
- Some of the ways you can build a successful career in the higher education sector

Session 2:

Leading authentically: understanding your values alignment

ABOUT THE FACILITATORS

Jacqui Rosa is the People & Culture Advisor is in the College of Nursing and Health Sciences. She has a Bachelor of Business (Human Resource Management) and has experience providing People & Culture services in a range of organisations, supporting leaders to attract and retain top talent, and enhance staff engagement and productivity.

SESSION OVERVIEW

Authenticity is the healthy alignment between our personal values and beliefs and the way we behave and communicate with others. Effective leaders can lead authentically through finding their style and way of leading that reflects their ethics, values and personality. Fostering authentic behaviour can lead to a range of benefits related to staff engagement, motivation and creating psychologically safe cultures.

This workshop will cover:

- Exploring the concept of authentic leadership and how you can create genuine connections and build trust as a leader
- Building self-awareness through identifying your personal values, strengths and areas for growth
- Understanding how your values align with our organisational culture and developing skills and strategies to consciously apply these values consistently and effectively

F L M E

Session 3:

Investing in your resilience

ABOUT THE FACILITATOR

Kathryn McEwen is the Global Lead of Working With Resilience, a consortium of practitioners and researchers who use the R@W Toolkit she has researched and developed. She has authored three books on the topic of workplace resilience and is sought out as an expert on this topic. Kathryn has a sound understating of the university context through her consulting work with Flinders and other universities and through various roles she has been employed in within this sector, including industry advisory boards and lecturing contracts.

SESSION OVERVIEW

Investing in our resilience is a useful strategy to manage demands and maintain wellbeing in a way that is sustainable.

This workshop provides a research-based framework, the Resilience at Work (R@W) Toolkit, (www.workingwithresileince.com.au www.resilience.tv) that offers a roadmap for systemically building resilience in the workplace. It acknowledges that resilience is a dynamic state that needs to consider the interplay between you, your team, leaders and the broader working environment.

This workshop will cover:

- A snapshot of systemic factors within the university sector that impact on resilience
- An opportunity to reflect on the challenges that you need to meet to create resilience personally, in teams and as leaders
- A research-based framework that helps you align strategies to invest in your personal resilience
- Opportunity to assess your personal levels of resilience at work
- Activities for development of individualised action plans

F L M E

Session 4 & 6:

Fundamentals of leadership and engaging others

ABOUT THE FACILITATOR

These two sessions will be facilitated by Rebecca Christianson who is the founder and Director of Thriving People Consulting. Rebecca is an Executive coach, facilitator, management consultant and keynote speaker. She specialises in helping leaders reach their potential and has 15+ years' experience working as an Executive and Senior People & Culture leader in Australia, UK and Europe across both private and public sectors. Rebecca also has a background in psychology so will discuss relevant cognitive behaviour theories, neuropsychological research as well as practical tools based on her lived experience as a senior leader in the corporate world. She is inherently curious about other people and strives to ignite that curiosity in the leaders she collaborates with.

SESSION OVERVIEW

These workshops will cover:

Part 1: How a better understanding of self can positively influence the culture around us

- The fundamentals of effective leadership, and what this look like in the University
- Exploring different leadership styles and the 4 roles a leader plays in the workplace
- How to increase self-awareness about the impact of our mindset
- Better understand how the internal stories we tell ourselves impacts our behaviour with others

Part 2: Developing strategies to constructively respond to conflict

- Understand the neuroscience behind conflict and why we build up conflict debt
- Reflecting on our default conflict styles and the impact this has on people around us
- Explore the typical critical conversation pathways to better understand how to positively influence people around us
- Understand and practice strategies around how to constructively respond to conflict

FLME

Session 5:

Unconscious bias & embracing diversity: being an inclusive leader

ABOUT THE FACILITATOR

This session will be facilitated by Rob Davey who is a Director at Diversity Australia. Rob is an Organisational Psychologist who specialises in bringing a holistic approach to diversity and inclusion which enables organisations to demonstrate a real commitment to valuing people at every level and build cultures that embrace trust, belonging and inclusion.

SESSION OVERVIEW

Being an inclusive leader is a vital part of promoting and sustaining a positive workplace culture where diverse perspectives, experiences and ideas are valued and encouraged. This session will examine the importance of leadership in modelling and encouraging behaviours that strengthen a culture that celebrates diversity. This module will also look at tangible and practical actions and strategies that leaders can undertake to ensure they create an environment in which everyone feels respected, valued and represented.

This workshop will cover:

- Exploring the transformational power of embracing diversity
- Understanding why unconscious bias exists
- Our personal biases and how to mitigate the impact
- How to demonstrate inclusive leadership and build an inclusive culture

FLAME

Collegial Conversations

Collegial conversations will be held regularly throughout the program. They will be informal opportunities for program participants to gather and reflect upon their learning and experiences by working through Action Learning Sets – exploring solutions to real problems / case studies and deciding on the best approach. These will be an important part of the shared learning experience and provide opportunities for reflection, solution finding and collaboration.

Action Learning Sets

Action learning involves the development of groups known as action learning sets, containing around 4–8 members. The purpose is to focus on problems, tasks and issues that a member identifies; the group then offers support and challenge to enable the individual to make progress on those problems.

The concept of action learning was developed by Reg Revans in the 1940s and has now become widely accepted as a useful tool for individual and organisational development. To learn more about action learning we recommend reviewing some of the recent literature including these reviews:

Cho, Yonjoo & Egan, Toby. (2009). Action Learning Research: A Systematic Review and Conceptual Framework. Human Resource Development Review. 8. 431-462. 10.1177/1534484309345656.

Park, Sunyoung & Kang, Ingu & Valencic, Taryn & Cho, Yonjoo. (2013). Why are we using action learning and in what contexts?. Action Learning: Research and Practice. 10. 10.1080/14767333.2012.744299.

Selecting a challenge to discuss

Prior to each session we will ask you to consider a current work issue / challenge you could use as a case study for a small group to discuss and work through in a reflexive manner. These will be submitted via email, and the FLAME team will identify several presenters for each session.

When considering an appropriate case study, the challenge should be something

- Work related, but may be affecting you personally
- Where there are multiple approaches you could take
- For which you have some level of responsibility
- That you are able to influence (to some degree)
- That you can make progress on during this year while you are completing FLAME

For example, maybe there is a challenging conversation you need to have with someone in your team and you are not sure how to address it, or you are leading a project and not sure how to gain traction.

Collegial Conversations (cont.)

The stages of Action Learning Sets will include

- The presenter will describe the problem / scenario to the group
- Group members may ask clarifying questions to further understand the challenge
- Group members will provide contributions to the presenter in the form of questions or considerations for action
- The presenter will reflect on the discussion and what action to take
- In the following session, previous presenters can provide a quick update on any actions taken / progress

Participants should all be contributing and learning whether they are presenting, questioning, actively listening or reflecting – we recommend you engage in each of these roles during the course of the collegial conversations.

Asking helpful questions

The aim of the discussion is to encourage the presenter's learning, by actively listening and asking probing questions. Asking helpful questions is not always easy but is a critical leadership skill.

Here are some suggestions for group members to consider:

Clarification / Probing

- What happened?
- How do you see it?
- What do you feel most challenged by?
- Can you explain more about…?
- You said a moment ago that… if that's the case, what would happen if…
- Who might help you?
- What obstacles do you envisage?
- Can you give an example?
- Who else is involved in this process?
- Have you explored / thought of …?
- Would… be of any help?

Action

- If all decisions rested on you, what would you do?
- What are your options for action now?
- What other possibilities exist?
- Where could you get more information from?
- Who else might have an interest in this?
- What is the first step you need to take?
- What are you going to do before the next meeting?

FLME

Collegial Conversations (cont.)

Ground rules

Collegial conversations should be a safe and confidential space, the group may want to set additional ground rules however these are some suggestions

- Listen actively and attentively to those speaking
- Even if group members can see a solution with great clarity, they should refrain from giving advice, taking over the problem, or talking about their own challenges or views – instead ask questions that encourage the presenter to see the situation more clearly for themselves, which may involve probing and challenging their personal interpretations
- Demonstrate a supportive, encouraging and empathetic approach
- Ask questions in a curious manner, but without judgement

Session dates

The collegial conversations are planned for the following dates, which will be added to your calendars

Thursday 9 May	9.30 – 10.30 am
Tuesday 25 June	10.00 – 11.00 am
Monday 7 October	1.00 – 2.00 pm
Monday 11 November	1.00 – 2.00 pm

After each session, it is useful to include a short reflection in your Portfolio to document learning / value-add from the collegial conversation.

FLAME Teams site

In addition to regular conversations in-person we also recommend interaction via Teams.

We have set up a FLAME Teams page to provide a method to communicate with the whole group, as well as a platform to access previous training session notes & other FLAME materials.

Support & Feedback

Learning through others in an important part of the FLAME experience. This includes engaging with others in the program, as well as those you work with in your current role.

Peer to Peer feedback & support

Leaders will be matched with a peer within the program cohort and asked to meet regularly to reflect on how they both have applied the learning from the sessions in the workplace. Both parties are also responsible for providing feedback to each other and increasing accountability to each other's learning goals. List of pairings will be available on the FLAME Teams site

Other support & feedback

We also recommend identifying several key people to provide feedback and support throughout the Program such as colleagues, mentor/s, supervisor etc.

If you do not already have a mentor, we would recommend enrolling in your College's Academic Mentoring Program (if available), the University Researcher Mentoring Program for Early Career Researchers, or University Professional Mentoring Program for Professional staff members.

FLAME feedback exercise

As part of applying FLAME in practice, you will have the opportunity to practice the skill of giving and receiving feedback in various contexts to build your leadership capabilities.

As leaders it is important to consistently seek feedback at all levels and visibly show you are receptive and appreciative of others' input and committed to continuous growth.

Encouraging a feedback-driven culture is important for engagement, growth, and innovation.

The FLAME feedback exercise includes two components:

(1) Approaching people who observed you in action and ask them to provide feedback (e.g., supervisor, direct-report, mentor, committee/team member etc.)

   The feedback you request should be planned strategically to support your development, so the questions you ask should depend on what insight you hope to gain to increase the chance of receiving useful feedback.

   For example
   - Since I have been involved in the FLAME program, have you seen any change in my leadership capabilities?
   - What do you see as my key leadership strengths?
   - Are there any observations or suggestions you can provide to assist me in being the best leader and advocate for my team?
   - One of my goals is _____, I would love to know what your observations are, do you have any suggestions for how I can develop further?

Support & Feedback (cont.)

(2) You will be randomly assigned with a peer in the FLAME Program so you can provide peer-to-peer feedback to practice both giving and receiving feedback.

You might like to provide feedback on observations during the workshops or collegial conversations. For example, you may have noticed they are very considerate and inclusive during discussions. It is also useful to provide constructive feedback, for example maybe they share great ideas in small group discussions but lack confidence when sharing with the larger group. The purpose of providing feedback is to increase self-awareness since it is important to know how we are perceived by our peers – this is an opportunity to do this in a safe learning environment.

Alternatively, if you do not feel you are able to provide meaningful feedback from FLAME interactions, you may prefer to share sections of your Portfolio and provide each other with feedback.

FL\\ME

TIPS FOR GIVING AND RECEIVING FEEDBACK

Giving feedback effectively

Feedback should be a two-way conversation, it is important to share your feedback but also ask facilitative questions and listen.

The following tips provide guidance on how to give feedback:

- Focus on the behaviour not the person by using specific examples rather than 'you' statements
- Focus on observation rather than inference, intuition or guesses
- Focus on description rather than judgment
- Be specific rather than general, providing examples where possible
- Balance the negative with the positive
- Remain objective and suspend your emotions
- Ask facilitative questions (e.g., 'tell me about…' rather than 'why did you…')

Receiving feedback effectively

Often we feel uncomfortable receiving feedback. It is important to remember the person giving you the feedback usually has good intent and may even require courage to deliver honest feedback.

The following tips provide guidance on how to receive feedback:

Reacting	- We need to be aware of and manage our emotional reaction to what we are hearing. Think about how we react will seem to us (and others) later. - Listen attentively and stay open to ideas and feedback – show you are listening by displaying open body language and facial expressions. - If you find yourself becoming embarrassed by positive feedback or defensive about constructive feedback allow yourself to "pause" before responding. You might do this by taking notes, asking a question, or just listening and allowing the person to finish without interrupting. - Physically you may like to focus on breathing deeply and slowly and consciously releasing the tension in your shoulders.
Reflecting	- Adopt a positive frame of mind and treat feedback as a gift that is given to help you to develop. - Once you have listened to the feedback and clarified your understanding take the time to evaluate it honestly. Try and see things from the other person's perspective. You may want to respond then and there, or you may want to reflect further before you respond. - Recognise your emotions and responses - be honest with yourself about how you feel when you receive the feedback. Try to work out why. Once you have identified how you feel you will be better able to choose how to respond instead of just reacting on the basis of your emotions.

FL\ME

TIPS FOR GIVING AND RECEIVING FEEDBACK

Responding	• It is how we respond that reflects our behaviour and determines how others will perceive our receptiveness to their feedback and openness to learning. • Assume good intent - thank the person for taking the time to give you the feedback. It may not have been easy for them to deliver it. • If receiving constructive feedback, it is important to resist the urge to immediately defend yourself or state your own viewpoint. • When you do respond, acknowledge any valid points that have been made. If there are none, at least acknowledge the other persons point of view and try to avoid defending, denying or blaming others. • Seek to understand the other person's perspective. Ask for specific examples to help you to understand the feedback and focus on improvements e.g. How could I do it differently next time?

Creating a safe and supportive environment

There are a few simple considerations to create an ideal environment for giving and receiving feedback, for example:

- When providing feedback it is useful to ask permission, since control is central to safety. "Can I give you some feedback about XX?"
- It is also useful to share your positive intent, explaining *why* you are providing the feedback (e.g., to support growth and development, to provide some useful insights or observations)
- Ensure the conversations occur in a private space, with enough time set aside to give the conversation your full attention
- If you are seeking feedback it can help to specifically request constructive feedback and make it clear you want to hear their perspective, so they feel safe to be honest

FLME

Leadership Project

This is an opportunity to drive a project of strategic importance and value to the University and apply leadership skills gained during the Program.

Consider if you would prefer to either

(1) Identify your own leadership opportunity if there is already a project/working group you're passionate about being involved in

When identifying a suitable leadership opportunity, it's worth considering

- Will you be able to apply learnings from FLAME and demonstrate leadership as part of the project
- Will you be able to set SMART goals to achieve by the end of the year (i.e., Specific, Measurable, Attainable, Relevant, Time-bound)
- Is it aligned with College/University strategic objectives
- Will it provide a positive challenge and opportunity for you to stretch yourself

(2) Explore working groups that exist in your College/Portfolio that you could be involved in. For CNHS participants, a list of working groups / projects is available on the Teams site based on current CNHS working group Action Plans, or other College priorities.

Please notify the FLAME team via CNHS_FLAME@flinders.edu.au with the opportunity you would like to select by Friday 15 March, or if you'd like to discuss options available.

Project selection to be finalised by end of March, the FLAME Team will notify you once your project selection is confirmed.

F L M E

Portfolio

The Portfolio exercise provides an opportunity to reflect on your FLAME experience and learning journey.

The Portfolio is separated into two sections. **Part 1** allows you to identify what you want to achieve during the year, including the leadership skills you want to develop as well as the leadership project goals you want to achieve. **Part 2** is an opportunity to document your experience in the FLAME Program and involves a high level of self-reflection to share what you've learnt and how you have applied it into practice.

Part 1 – Due 28 June

Personal Statement & Purpose, Leadership Philosophy, Learning in Action Opportunity, Goal Setting

Part 2 – Due 15 November

Reflections, Summarising Outcomes Achieved, Feedback Exercise

Format

You have flexibility to use the format you prefer. For example, Canva, PowerPoint, Word, Mahara.

Word Count

There is no strict word limit, however as a guide we recommend around 15-20 pages if using PowerPoint / Canva, or 8-10 pages if using Word (part 1 & part 2 combined).

Feedback/Marking

You will receive feedback on your Portfolio, which will be marked by the FLAME Team. While it will not be graded, if you would like to see the criteria the Feedback Guide is on page 23-24.

Portfolio Guidelines & Tips

PART 1

The first component of the Portfolio should be completed at the beginning of the FLAME Program. This provides an opportunity to self-reflect on what you want to achieve during the rest of the year.

Part 1 is due on 28 June 2024. Please email to CNHS_FLAME@flinders.edu.au

Personal Statement and Purpose

For example, this could include:

- Current position, length of time at Flinders
- Leadership history / aspirations
- Purpose for enrolling in FLAME
- What motivates you / what are you passionate about

Leadership Philosophy

For example, this could include:

- What leadership means to you
- Leadership qualities that are most important to you
- What type of leader you aspire to be
- What values guide you as a leader
- Self-assessment of current strengths and development/focus areas
- Set personal goals to achieve as a leader

Leadership Project Opportunity

For example, this could include:

- Overview of the opportunity & your role
- How it links to College / University Vision & Strategic Plan
- Set goals to achieve (3-5 goals)
- Project goals but also personal goals
- Anticipated challenges

Portfolio Goal Setting

How do I determine my goals?

Things to consider:

- Team goals / project goals
- College / University Strategic plan
- Your personal/career goals
- Key strengths – what can you build on
- Challenges and development – identify a 'stretch' goal
- What skills you want to develop (for example)

Building Resilience	Improving Communication (verbal/written)	Conflict Resolution	Decision Making	Building & Sustaining Relationships	Embracing Diverse Perspectives
Coaching & Developing Others	Public Speaking	Time Management	Active Listening	Negotiating & Influencing	Building Trust
Expanding Networks	Increasing Collaboration	Demonstrating Empathy	Remaining Composed and Confident in Uncertainty	Supporting Others	Stimulating Ideas, Innovation & Continuous Improvement
	Industry Expertise	Fostering Healthy & Inclusive Environments	Decisiveness	Giving & Receiving Feedback	

How do I refine my goals?

The SMART principle

- Specific – ensure you are clear about what you want to achieve so can focus your efforts
- Measurable – ensure you know what success looks like and can measure progress
- Attainable – ensure the goals are manageable so you feel committed / confident
- Relevance – ensure the goals are important and you are motivated to achieve them
- Time-bound – ensure the deadline/timeframe is clear to maintain accountability

Tips for Success

- Set a realistic number of goals (e.g., 3-5) – focused on the leadership opportunity you're involved in, as well as some personal goals to build your leadership capabilities
- Include 'stretch' goals to extend and challenge yourself
- Focus on approach goals to attain desirable outcomes, rather than avoid undesirable outcome (avoidance goals)
- Set regular times to reflect and review your goals & celebrate success
- Lean on your network for support - share your goals with a mentor or colleague, ask for feedback

FLAME

Self-Assessment

We recommend completing this assessment pre- and post- FLAME as an opportunity to set goals as well as track your progress.

Consider the learning outcomes of FLAME Bronze and how you would rate your current skills and abilities in this area.

Leadership Capability		Self-Rating		
		I do not do this well	I do this somewhat well	I do this well
Learning outcomes	Understand the business and social context of higher education			
	Connect with their purpose, values and core strengths to lead authentically			
	Develop awareness of their personal levels of resilience and identify strategies to manage stress and prepare for future challenges			
	Seek out and leverage feedback to enhance their self-awareness, leadership and impact			
	Develop a broad understanding of effective leadership roles and strategies to apply in a variety of settings			
	Understand how to demonstrate inclusive leadership and embrace the value of diverse perspectives			
	Develop effective strategies to constructively navigate conflict			
Desired leadership qualities	Embrace diversity and demonstrate inclusive, culturally sensitive and openminded leadership			
	Support and encourage others, while also able to make timely decisions and have difficult conversations			
	Have high levels of self-awareness and understand your impact on those around you			
	Strive for excellence by identifying areas for change and supporting their team to achieve great outcomes			
	Proactively collaborate across the College/University, encouraging information sharing and open discussions			
	Demonstrate generosity with your time to help nurture others to reach their potential			

PART 2

The second component of the Portfolio provides an opportunity to reflect on you FLAME experience and report on the outcomes you have achieved.

Part 2 is due on 15 November 2024. Please email to CNHS_FLAME@flinders.edu.au

Training Sessions

For example, this could include:

- What were the key takeaways from each session
- What aspects of the training sessions did you apply in Practice
- How did FLAME expand your understanding and support your growth & development regarding understanding self, understanding leadership, understanding others, understanding context

Collegial Conversations

For example, this could include:

- Reflections on the experience of collaborating with your peers during Action Learning Sets and any key actions you implemented
- What you've gained from the group conversations, as well as 1:1 conversation
- The feedback you have received (from peers in the Program, as well as several people who observed you in action)
- Reflections on the experience of giving and receiving feedback, for example
    - What did you learn from the experience of seeking feedback
    - Did you receive useful feedback that you can put into action
    - How did you find giving feedback to your peer? How was it received

Leadership Project

For example, this could include:

- How did taking part in this leadership project opportunity improve your skills and experience as a leader
- What are 3 key things you took away from the experience
- What outcomes/goals did you achieve
- What outcomes/goals were not achieved – what did you learn
- To what extent have you met the skills, knowledge and experience objectives within the Program (re-complete self-assessment)

FLAME

Portfolio Feedback Guide

Staff member: _____

Reviewed by: _____

Skills, knowledge and experience expected at the Bronze level:

- Understand the business and social context of higher education
- Connect with their purpose, values and core strengths to lead authentically
- Develop awareness of their personal levels of resilience and identify strategies to manage stress and prepare for future challenges
- Seek out and leverage feedback to enhance their self-awareness, leadership and impact
- Develop a broad understanding of effective leadership roles and strategies to apply in a variety of settings
- Understand how to demonstrate inclusive leadership and embrace the value of diverse perspectives
- Develop effective strategies to constructively navigate conflict
- Embed these desired leadership qualities into their everyday work
    - Embrace diversity and demonstrate inclusive, culturally sensitive and openminded leadership
    - Support and encourage others, while also able to make timely decisions and have difficult conversations
    - Have high levels of self-awareness and understand your impact on those around you
    - Strive for excellence by identifying areas for change and supporting their team to achieve great outcomes
    - Proactively collaborate across the College/University, encouraging information sharing and open discussions
    - Demonstrate generosity with your time to help nurture others to reach their potential
