Install ‘Flinders Print’ printer on your Flinders’ managed device

Setting Up ‘Flinders Print’ will allow you to collect your printing from any ‘Follow me’ printer device

1. Make sure your computer or laptop is connected to the Flinders network	
2. Open the IDS Support Portal from your desktop	
3. Select ‘Install Software’	4. Select ‘Flinders Print’ and follow prompts to install	5. Installation is complete. Select ‘Flinders Print’ printer queue for your next print job (if Flinders Print is not listed, close and restart the program you’re using)
