

Field Weighted Citation Impact (FWCI) metrics ResearchNow QRG

This QRG provides instructions on how to view Field Weighted Citation Impact (FWCI) metrics associated with research outputs in ResearchNow.

Field Weighted Citation Impact (FWCI) on Research Outputs.

ResearchNow automatically retrieves and assigns-FWCI metrics from SciVal to all claimed research outputs that are linked to a verified Scopus ID. You have the option to view the FWCI and Scival metrics for each of your outputs in ResearchNow.

In ResearchNow, click on **Personal** and in the drop-down menu, click on **Research outputs**.

Select the output you would like to view the metrics for.
